ULTRA BOARD™

WHITE DP

Ideal for digital printing applications, DP is a lightweight structural panel of rigid polystyrene foam core faced on both sides by ultra white poly-coated Kraft paper. Advanced adhesives bond core to facers forming permanent adhesion that insures durability. Polymer coated Kraft paper facers have been specially developed to provide an excellent surface for print results in UV, silk screen, and latex printing applications.

UltraBoard White DP (Digital Printing) Specifications

Thickness	3/16", 1/2", 3/4", 1"
Size	48" x 96", 60" x 120", Custom Sizes
Color	White, White/Black/White
Cutting	Die Cut, Drag Knife, Hand, Oscillating Blade, Saw, Vibe Knife
Compatibility	Latex, Eco Solvent, Screen, Solvent, UV
Durability	7 Years
Price	\$\$
Application	Interior

Dimensional Material Tolerances

Length & Width	+ - 1/16"
Diagonal Squareness	[1/8"]
Straightness	[1/16"] Linear Adjacent Corner
Thickness	+ - 0.030"

Carton Quantities

Panel Thickness	Pieces Per Carton
3/16"	16
1/2"	12
3/4"	8
1"	12

48" x 96" Single Panel Weights

Panel Thickness	Weight in Pounds
3/16"	6.1
1/2"	8.1
3/4"	9.4
1"	10.6

UB OUR PRODUCTS

The industry favorite. Our most popular and versatile substrate featuring a styrene foam core and facers.

Our most rigid, high density and 100% recyclable polystyrene foam board. It's perfect for applications requiring durable prints.

Priced to beat the competition. It's one of the most cost-effective foam core substrates available on the market.

Ideal for digital prints with a styrene foam core faced on both sides by ultra white poly coated Kraft paper.

The show-stopper of foam core mounting boards used for art, print and photographic mount applications.

3/16" foam with 12 pt. white clay coated papers. Cost-effective and ideal for temporary applications.

The most rigid foam core panel available. A 1mm PVC facer alternative to cheaper materials like plywood.

A light-weight Anodized Aluminum facer is a cost effective solid-metal alternative. The appeal of metal with the advantages of foam.

Gallery-ready mount board featuring a high-tack acrylic adhesive pre-coating on one side and a black or white edge banded finish.

Utilized by commercial development labs for its very smooth .030" thick styrene liners with Peel N' Stick high tack adhesive on one side.

Features a heavy and dense styrene foam core between 18 pt. polyethylene coated paper liners with Peel N' Stick high tack adhesive on one side.

Unmatched HIPS quality & consistency; as well as improved logistic services to our distribution centers nationwide. Perfect for window signs & banners.
