UB OUR PRODUCTS

The industry favorite. Our most popular and versatile substrate featuring a styrene foam core and facers.

Our most rigid, high density and 100% recyclable polystyrene foam board. It's perfect for applications requiring durable prints.

Priced to beat the competition. It's one of the most cost-effective foam core substrates available on the market.

Ideal for digital prints with a styrene foam core faced on both sides by ultra white poly coated Kraft paper.

The show-stopper of foam core mounting boards used for art, print and photographic mount applications.

3/16" foam with 12 pt. white clay coated papers. Cost-effective and ideal for temporary applications.

The most rigid foam core panel available. A 1mm PVC facer alternative to cheaper materials like plywood.

A light-weight Anodized Aluminum facer is a cost effective solid-metal alternative. The appeal of metal with the advantages of foam.

Gallery-ready mount board featuring a high-tack acrylic adhesive pre-coating on one side and a black or white edge banded finish.

Utilized by commercial development labs for its very smooth .030" thick styrene liners with Peel N' Stick high tack adhesive on one side.

Features a heavy and dense styrene foam core between 18 pt. polyethylene coated paper liners with Peel N' Stick high tack adhesive on one side.

Unmatched HIPS quality & consistency; as well as improved logistic services to our distribution centers nationwide. Perfect for window signs & banners.
